

**Applications:**

- Apartments
- Condominiums
- College dormitories
- Classrooms
- Schools
- Hospitals
- Any area where reduction of impact noise is desired

The **Regupol® Sonus LV Impact Sound Underlyments** have been specifically engineered and manufactured to reduce the passage of impact transmission caused by people walking and can be installed under vinyl plank (LVT), sheet vinyl, carpet & carpet tile.

**Materials**

Regupol® Sonus products are GreenCircle certified for recycled content and can qualify for potentially 8 LEED points, making Regupol® underlyments the preferred choice for impact sound control applications.

Regupol® America – the leader in acoustic and vibration control; brings sustainable, engineered, technology-driven products to your next construction project.
